U.F.A. POLICE HEADS PROVINCE FOR HIS LIFELONG

FISCAL TAXATION RECORD OF U.F.A. GOVT. IS BARED

Efficiency, Economy Boast of Attorney-General Answered by Bare Records of Administration

By G. H. VAN ALLEN, K.C.

Honorable J. F. Lymburn, attorney-general, was reported in the press on June 21st, 1934, as having made a statement before the U.F.A. Political Association of Clover Bar, as follows:

"The present government in Alberta has carried on efficiently and economically."

This extraordinary statement is worthy of investigation. The U.F.A. is now affiliated with the C.C.F. Mr. Macklin, the U.F.A. director for Peace River north, in his booklet, "The Time and Object of the C.C.F.," says that:

"The C.C.F. platform as far as the U.F.A. is concerned, is the U.F.A. platform."

One of the features of the C.C.F. program is a planned economy. It is interesting, as an illustration, to consider the record of the U.F.A. Government in planning the finances of Alberta.

Record of Extravagance

The U.F.A. Government has the most extravagant administration this province has ever had. In the year of the Liberal Government in 1903, a period of 16 years. The Liberal Government built, erected houses, gaols and other public buildings, roads, bridges and all the other public works necessary for the province. In so doing it accumulated a net funded and unfunded debt of \$60,000,000. Under the U.F.A. Government, from 1921 to 1932, a period of 12 years, and with the greater part of the principal public works beforehand, the net debt was increased to \$143,000,000. (See 1933 Public Accounts, p. 87).

Moreover, the government has not only increased the capital debt, but it has vastly increased the operating expenses. In the year of the Liberal Government was \$5,000,000, whereas in the fiscal year ending March, 1934, the present government collected \$15,426,000. Debt charges alone on the public debt today amount to almost as much as the total sum raised by taxation by the Liberals in 1921. Debt charges last year were \$6,814,000. This year they will be about \$7,000,000.

As a further illustration of how the U.F.A. Government has planned its finances, consider the following:

In 1920, Honorable Mr. Reid, as provincial treasurer estimated for a surplus of \$73,741, including the telephone estimates, while the actual result was a deficit of \$2,400,750.

In 1931 he estimated for a deficit of \$73,841, including the telephone estimates, while the actual result was a deficit that year alone of \$7,368,328.

In 1932 he estimated for a surplus of \$140,200 on income account alone while the actual result was a deficit of \$2,094,983. (See Journal of the House, 1933, p. 83, also Public Accounts, 1933, p. 10).

Finally, in 1933, he estimated for a surplus of \$790,000, but the first nine months of the fiscal year showed a deficit of \$1,904,983. From this showing in planning provincial finances, the U.F.A. party is now asking the people to entrust to them not only the ordinary affairs of government, but also the socialization and operation of practically all the business of the province. The above figures provide a reasonable guide to their success in so doing.

Comparison Tells Story

To give a clear idea of the extravagance of the U.F.A. Government, it is only necessary to compare its financial operations with those of the Liberal Government from 1903 to 1921. The following figures are taken from the Public Accounts, 1933, page 87:

GOVERNMENT OF THE PROVINCE OF ALBERTA Consolidated Surplus or Deficit Account Income Account

GENERAL REVENUE FUND

| Year ended March 31 | Revenue | Expenditure | Surplus or Deficit |
|---------------------|---------------|---------------|--------------------|
| 1903 | \$ 653,975.37 | \$ 150,021.10 | \$ 483,954.27 |
| 1904 | 1,428,050.01 | 1,279,041.44 | 149,008.57 |
| 1905 | 1,847,452.61 | 1,820,064.04 | 8,388.57 |
| 1906 | 2,755,900.41 | 2,079,708.20 | 676,192.21 |
| 1907 | 2,511,851.46 | 2,632,935.53 | 121,084.07 |
| 1908 | 2,071,773.94 | 3,696,826.86 | 1,625,052.92 |
| 1909 | 2,367,623.79 | 3,037,615.45 | 225,292.66 |
| 1910 | 3,419,281.52 | 3,353,258.48 | 66,023.04 |
| 1911 | 4,519,345.19 | 4,409,705.18 | 109,640.01 |
| 1912 | 4,350,826.79 | 4,446,160.31 | 95,333.52 |
| 1913 | 4,144,040.15 | 4,742,374.81 | 598,334.63 |
| 1914 | 4,228,971.28 | 5,006,993.83 | 778,022.55 |
| 1915 | 5,069,003.73 | 7,712,643.08 | 643,339.30 |
| 1916 | 6,283,326.15 | 7,132,119.21 | 848,783.06 |
| 1917 | 8,004,476.10 | 7,905,330.47 | 99,145.63 |
| 1918 | 9,005,582.21 | 8,544,052.16 | 461,530.05 |
| 1919 | 8,486,946.25 | 10,065,155.91 | 2,118,209.66 |
| 1920 | 9,321,880.73 | 11,235,192.22 | 1,910,302.49 |
| 1921 | 10,419,146.26 | 10,090,830.00 | 328,316.26 |
| 1922 | 10,506,627.13 | 11,127,468.55 | 620,841.42 |
| 1923 | 11,531,025.99 | 11,343,006.45 | 188,019.54 |
| 1924 | 11,912,128.27 | 11,894,327.74 | 17,800.50 |
| 1925 | 12,263,400.64 | 12,479,380.97 | 215,980.33 |
| 1926 | 13,886,450.04 | 13,390,751.58 | 495,748.46 |
| 1927 | 15,265,083.77 | 13,688,260.68 | 1,576,823.09 |
| 1928 | 15,520,585.22 | 15,402,884.57 | 117,690.65 |
| 1929 | 15,710,962.44 | 15,017,543.54 | 2,703,518.90 |
| 1930 | 12,492,420.28 | 18,645,481.20 | 2,153,050.92 |
| 1931 | 15,426,264.94 | 13,753,785.97 | 1,672,521.03 |

No Debt Reduction

The reader will be struck with the tremendous and progressive increase in taxation and expenditure from 1921 onward. In 1921 the population of Alberta was 589,454. In 1933 it was 721,680. (See 1933 Public Accounts, p. 89). For example the deficit of 1932 under the U.F.A. party actually exceeded the entire revenue under the Liberal party of 1917. These two periods compare favorably because in one case there was a state of world war and in the other a state of world depression. One would think that with the tremendous increase in taxation the Government could have reduced the public debt which it so vehemently complained about before they came into power in 1921 or they could have at least balanced their accounts.

In 17 years of Liberal Rule (1905-21 inclusive) they collected \$56,000,000. If the Liberal Government had remained in power and collected, for years 1921-1934, the same revenue that they did in 1921, they would have collected \$8,423,779. In 1933 the U.F.A. Government, they collected from 1922-1933 inclusive (estimating 1934 to be the same as 1933) the sum of \$160,000,000.

Increase \$60,000,000

Increase in direct and indirect debt (1921-32)

HIGH SCHOOL HELP CLASSES TO BE OPENED

Decision Conditional On Enough Students Enrolling, However

Classes for coaching of students in grades 10, 11 and 12 who wish to write supplemental examinations will be opened this summer by the Edmonton Public School Board, provided sufficient pupils wish to enroll. It was agreed at the trustees' meeting, Monday night.

If registration is sufficient to warrant organization of such classes, they will be provided in suits in which supplements are offered. A fee of \$3 per unit is to be charged.

GOES TO COMMITTEE

Protest and request for adjustment of the principal salaries, with a view to narrowing the differential between the salaries for large and small schools, received from C. F. Hunter, was referred to the school management committee.

Recommendations on matters under discussion by the board, received from the Edmonton High School Teachers' Alliance, were moved to the management committee. The Alliance expressed the opinion that the entire staff was needed during the examination period. Other recommendations related to the school staff were referred to the school management committee.

APPOINTMENTS

A. T. Livingston was appointed principal of Riverside school, Claremont, Hinton, B.C., and was appointed to the position of a temporary basis.

Miss Lorry B. Smith was awarded a position as household science teacher, Miss Mildred Thrasher will replace Mrs. C. E. McInnes for the next year at South Side Commercial school, and Miss M. K. McInnes will replace Mrs. Thrasher's place at Riverside school, Miss M. K. McInnes will replace Mrs. Thrasher's place at Riverside school.

Appointment of a principal for Forest Heights school was left in abeyance.

The Victoria Cross was instituted in 1856. It was the first of the Victoria Cross was instituted in 1856. It was the first of the Victoria Cross was instituted in 1856.

AS REVISOR

\$ 79,837,454

Collected in taxation in 13 years in excess of 1921 60,000,000

Total increase in debt, plus taxation over 1921 139,337,500

There has been a progressive increase in taxation since 1921. Government supporters always answer this criticism by saying that the taxation of individuals has not been actually increased, but the increased revenue of the Province is explained by increased business done. This statement is by no means true. For example in 1921, expenditure for debt charges was \$3.30 per capita, whereas in 1933 it was \$9.31 per capita. In 1921 total taxation in Alberta from all local sources was \$11.40 per capita, whereas in 1933 it was \$17.40 per capita. (See 1933 Public Accounts, p. 88 and 89). This is not planned economy—this is planned insolvency.

At the 14th Session of the Legislature, the Liberal members moved the following resolution:

"That the Government revise and reduce its estimates in order to effect a reduction in the proposed expenditures of not less than \$5,500,000."

The Honorable Mr. Reid, Provincial Treasurer in the U.F.A. Government, estimated this year for a deficit of about that sum. The Liberal party made this attempt to balance the budget but the U.F.A. forces behind the administration, voted this motion down. The Government was unwilling to reduce the expenditures for 1934 notwithstanding the general demand for retrenchment in public expenses.

Wife Pleads For Ponzi's Pardon

Hope that he would be saved from deportation to Italy directed for Charles Ponzi, notorious "get-rich-quick" wizard, when Governor Roy of Massachusetts denied him a full pardon after he had served a prison term for his international money-raising exploits. Here he stands solemnly by while his loyal wife makes a tearful but ineffectual plea in his behalf.

NEA

Astor's Apology Not Necessary

SPRINGFIELD, Mo., July 24.—John Jacob Astor did not have to apologize to Helen Gillette to recover his Empress Eugenie engagement ring, according to opinions of several Springfield lawyers.

The lawyers recalled their actions in which rulings were obtained directing girls to return their engagement rings to the young men. However, the lawyers said, the same ruling held that if a person gave the girls did not have to be returned.

It takes two barrels of corn to produce liquor enough to fill one automobile body.

SOVIET DOOMS EIGHT TO DIE IN SPY CAUSE

Conspirators Charged With Wrecking Trains in Far East

MOSCOW, July 24.—Eight conspirators were sentenced to death Monday for wrecking trains and otherwise endangering the interests of Japan.

Fifteen other conspirators were given long prison terms by the military tribunal of the Supreme court. It was charged the conspirators were members of a well-organized espionage ring.

It was brought out at the trial held here that an organization headed by Kim Joon, a Korean, allegedly sought information about transportation of troops and supplies to the Far East.

Witnesses at the trial stated that the conspirators had been active in Manchuria, where much machinery and several locomotives were damaged were attributed to the espionage organization.

Zayen was among those sentenced to death.

"Times" Barred

BERLIN, July 24.—The London Sunday Times was excluded from Germany today under Art. 2 in a government order which charged "incorrect reporting of the German situation."

PURVIS TOOK BUCK FEVER ON BIG JOB

U.S. Federal Agent In Charge of Dillinger Net Admits Fear

VACUUMS

"According to the latest studies made at
Wilson Observatory, California, completely
empty space does not exist anywhere in the
universe. These studies showed that the region
between the stars is not a vacuum, but is a
perfect, vacuum; there is about one atom of
matter in every cubic inch of space. A single
drop of water, containing about 1,000,000,000,000
000,000,000 atoms would be enough to fill
3,750,000 cubic miles of space to that density."

—Victoria Times.

Atoms in the inter-stellar vacuum seem to
be about as plentiful as constructive ideas in
the heads of Canada's depression-time govern-
ments.

RUNNING A BLUFF?

The date has been set for holding four
Dominion by-elections—in Toronto east, York
north, Elgin west, and Frontenac-Addington.
Voting is to take place on Sept. 24th. Announce-
ment is expected shortly of the date for a fifth
by-election, in Kenora-Hamby River.

The announcement that preparations are
being made to fill these vacancies in the Com-
mons by holding by-elections of course implied
a decision to postpone the general election until
next spring. But while that is implied it is by
no means certain.

Under powers conferred by the new Fran-
cise Act, the Government can dissolve parlia-
ment, spring a general election, and get the
people proceeding without the aid of six
weeks. There is still plenty of time to call
a general election to be held on Sept. 24th, or
even in earlier date. The government might
be with-held for three weeks, and still allow
time to hold the general elections on the date
named for these by-elections.

While the assumption is invited that the
present parliament is to live out its term, it
will be as well to take the date of the
election of the House of Commons into account
of grain salt until Monday, Aug. 13th. That
is the latest date on which it would be possible
to call a general election and have the vote
taken on Sept. 24th.

It is to be supposed that a Government so
discredited as the present one will lose no
opportunity to gain the approval of the
people by calling for a "snap" verdict from the electors.
The by-election announcements may be only
intended to decide the issue of the election
with no prospect of general elections being
held this fall.

PEOPLE DEMAND ACTION!

The Mayor and the majority of Edmonton's
aldermen are politically labelled "Labor."
Premier Borden has said that he has secured
a majority of members in the provincial legis-
lature, are labelled "U.F.A." But neither the
city nor provincial authorities, to date, have
taken a single constructive step stop paying
wages of interest on the public debt.

The provincial authorities have absolute
power to tax all interest rates on the present
rates, or any amount they decide is reasonable,
with farmers bankrupt and wage-earners at
half-pay on relief.

Instead of doing something in the interests
of the classes they are supposed to represent,
council and Government are busy with the
"sound-money" racketeers, and with the
provincial legislature this year, the U.F.A. and
Labor representatives joined hands with Tories
and Independents to vote down the Liberal
resolution for a temporary reduction in interest
rates—sole exception, Alderman C. L. Gibbs,
M.L.A. (Labor), Edmonton.

The people of Edmonton and Alberta, with-
out regard to political affiliation, are in no
mood to stand further for discrediting policies.
With real estate and farm values nil, business
headed for bankruptcy, along with the munici-
palities and the provinces, the people are
elected leaders be thinking of when they
intend to impose further taxes to pay "good-
money" interest rates, and "sound money" and
raise prices and restrict retail sales of many
things? Do they want riots and mob rule?
If they do, they are going the right way about it.
The city and provincial governments must
wake up to the pressing needs of the people or
give place to others with courage and determi-
nation.

Theories are fine but people demand the
right to a decent living now. They are sick of
speculative talk, about "sound money" and
"sanctity" of war profiteers' tax-free bonds.
They have had all they want of "higher your
labor" advice. They know the war has been
robbed and plundered by the private money
racket, and by the special privilege tariff
groups; and they will not continue to elect men
to office who will not use the powers given them
to change conditions.

FIRST FIX THE ROADS

From Ottawa comes the welcome news that
plans are being made to launch an active cam-
paign next year to induce tourists to come to
Canada. This is perhaps the result of the in-
quiry made during the recent session, by a
Senate committee, into the rise, fall and out-
look for tourist travel.

The campaign, it is hoped, will be well or-
ganized and directed, started early in the year,
and financed in confidence that the investment
will be profitable. That is one direction in
which Canada can spend money with assurance
of getting some return—provided we make
arrangements to allow the tourists to see what
they want to see if they come.

As a preliminary to any large-scale effort
to attract tourists, the Dominion should finance
the completion of the Jasper Highway project,
push work on the mountain section of the
Trans-Canada Highway project, and fill in any
other "hot links" in the highway system of
Canada east and west.

If we are to "go after" tourists in numbers
next year, the highway system should be com-
pleted this summer. Unless that is done, the
effect of the campaign will be discounted, and
justification for the money may even turn out
to operate like a boomerang.

Tourists are not a bit interested in high-
way projects; it is highways they want. They
will not swarm over dirt roads and be disap-
pointed by wet weather. They will not run
up dead ends and blind lanes knowing that
they must come back over the same route. They
want permanent all-weather highways, so con-
nected up that circle routes and through trips
can be made.

Now that the Dominion is showing interest
in the possibilities of the tourist business, it
may be possible to secure the consent of Al-
berta to get the money to finish the Jasper
Highway this year and make a job of it; while
the Dominion itself should see that the Trans-
Canada main stretch will be completed and
ready to use when next year's touring season
opens.

ment has demanded that Serbia give formal
assurance that it condemns anti-Austrian
propaganda in the newly-annexed territories in
the Balkans.

POEMS THAT LIVE

LOVE'S SECRET
Never seek to tell thy love,
Love that never told can be;
For the gentle wind doth move
Silently, invisibly.

I told my love, I told my love,
I told her all my heart,
Trembling, cold, in ghastly fears,
Ah, she did depart!

Soon after she was gone from me,
A traveler came,
Silent, invisibly,
He took her with a sigh.

—William Blake.

The Passing Show

By J. S. COWPER

Have you ever been away on a small boat
cruise of the fjords and inlets of the B. C.
coast? If you have, you have seen a sight
of you. It doesn't call for much expenditure of
money. It doesn't even call for sea or engine
skill or navigational knowledge if you charter
a small craft with an experienced operator.

Then I found a small boat with an expe-
rienced operator. With a com-
panion party which each of them
turn at preparing the food and washing the dishes,
and who love the freedom
of the open water.

A small boat cruise on the B.C.
coast provides, for the time
being, a beautiful scenery, a
freedom, friendliness and
good fellowship than any
other form of holiday.

J. S. Cowper
'other form of holiday' is lost in the
ye landmen!

This trip, hurriedly planned, suffered from
all the disadvantages of hurriedly planned
trips. It was interrupted by an SOS call to
return to Vancouver, and the trip was
completed this summer. Unless that is done, the
effect of the campaign will be discounted, and
justification for the money may even turn out
to operate like a boomerang.

Tourists are not a bit interested in high-
way projects; it is highways they want. They
will not swarm over dirt roads and be disap-
pointed by wet weather. They will not run
up dead ends and blind lanes knowing that
they must come back over the same route. They

Eye Examinations

Important

By DOCTOR FRANK MCCOY

Eyestrain has a detrimental influence upon
the entire nervous system. My experience with
thousands of patients has convinced me that
this is true, and I believe that a thorough ex-
amination of the eyes should be included in any
complete physical examination. I have been
receiving an increasing number of patients
suffering from eyestrain, and the functions and
care of the eyes. Evidently the public
is beginning to realize the
true importance of the
"windows of the soul." As most
authorities agree that 50 per
cent of all nervous diseases
for the number of people
suffering from defective eyes,
it has become necessary to
prevent eyestrain and its attendant ills.

Let us discuss some of the various types of
eyes from an anatomical standpoint. Scientific-
ally a normal eye is described as emmetropic;
that is it is normal in length and it focuses
without undue effort or strain. The far-sighted
or hyperopic eye is by far the most prevalent.
It is shorter in length from front to back than
the normal eye, and the light rays do not focus
on the retina, but in front of it. The near-sighted
eye, or myopic eye, is longer than the normal
eye, and the light rays focus on the retina, but
in front of it. The near-sighted eye is longer
than the normal eye, and the light rays focus
on the retina, but in front of it.

Dr. F. McCoy

POLICE PUSH
HUNT FOR TWO
STORE THUGS

No Trace Found of Bandits
Who Held up and Robbed
Safe Store

Your men whose lives were threatened by a daylight bandit with a jittery trigger finger that sent three shots crashing into the store, examining the marks of the masked men who held them in the refrigerator while he plundered the cash registers in the safe store, 121 street, and 109 avenue, of 3000 late Saturday afternoon. Meanwhile the hunt for the young stick-up and his car-driving accomplices, gone on unabated with every police department in the Canadian west taking

Lorne Sharratt, manager of the Safeway Meat Department, upon whom police are depending to make an identification should arrests be made, spent most of Monday looking over photos in the register gallery. Three other men, including Culmiller and Faulkner were no more than returned here.

Pictures of known stick-up men were examined first without result. A search was then made to include all photos in the gallery. Edmondson, who was in the store at the time, was also in the gallery. Vancouver, Winnipeg, Regina and other cities were contacted.

With railway police "frisking" all trains and Royal Canadian mounted police watching the roads and police at the station, the intention of having police believe they had fled the city.

Radio and the telephone wires are a slim chance of catching the man to public and police of the city. The intention of having police believe they had fled the city.

THIEVES ROB
TWO GARAGES

Seath and run thieves, believed to be driving a light-colored car, scoured up north currency from the cash register of a garage, 1111 1st street, early Monday morning, making a clean break with \$16 from Pollard's garage.

Roy Cook, proprietor of the garage, happened to glance up as a car standing in front of his garage. When service was wanted, Cook rushed to the front but before he could get to the door, the car had pulled away, turning the driver of the car or the passenger. The driver of the car or the passenger machine just before it darted from the garage had cleared the car.

The fill, standing in the store room, was broken open and cleared of money. The cash register was in order at noon when Cook rushed up a bill. Due to the speed with which the car pulled out from the curb Cook was unable to get either the license number or a description of the occupants.

Another store room robbery, the second Monday, following on the heels of the cash register match at Cook's garage, was reported at 1111 1st street, where a car pulled up, and a man in a dark jacket, of Pollard's garage, 1111 1st street, made a clean break with \$16 in bills between the car.

Al Clarke, mechanic working at the garage, happened to glance up as a car pulled up. When service was wanted, Clarke rushed to the front but before he could get to the door, the car had pulled away, turning the driver of the car or the passenger. The driver of the car or the passenger machine just before it darted from the garage had cleared the car.

The fill, standing in the store room, was broken open and cleared of money. The cash register was in order at noon when Cook rushed up a bill. Due to the speed with which the car pulled out from the curb Cook was unable to get either the license number or a description of the occupants.

Share of Proposed Loan
From Dominion Government
Sought by Public
School Trustees.

Request for an appropriation of \$75,000 of the proposed federal loan to the City of Edmonton will now be made by the Edmonton Public School Board. It was decided at a trustees meeting Monday night. The money will be asked for the building of an extension to the McMillan Technical school and other minor building work.

The motion was brought up by trustee S. Bowcott, who first suggested that an appropriation should be made for the school. "Most of the work is graving," he said. "The school is a business trip south. Beet and other crops are used as valuable as insurance policies."

Understand the mayor has so far planned the spending of about \$75,000 of the million dollars," he said. "Most of the work is graving," he said. "The school is a business trip south. Beet and other crops are used as valuable as insurance policies."

THE TUNNIES

At Ditty eyed the marshmallows, the candy said: "Well, goodness knows, those fluffy bits of candy shouldn't do a bit of harm."

"However, I suppose they'll scare the Meanie Men. That will be rare. I'd like to be on hand to see the candy spread alarm."

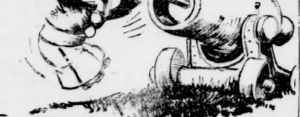

"Now, tell me, how will they be shot? If, in the cannon, what a lot of noise it's going to make. I think I'll run away from here."

"A Cheerful Chap said: 'Aw, don't fret. No shock, miss, are you going to get the cannon, with one little bang. There's no harm in a thing to fear.'"

"The Tunnies, in the meantime, had piled candy high. 'Gee, I'll be glad when we are set to start our fun,' said Copy, with a grin."

"I know that it will be a lark. Shall we start now, or wait till dark? Come on, you little Cheerful Chaps, tell us when to begin."

"Don't be impatient! Take your time," a Cheerful Chap replied.

racing event. The tenth round
was a swimming competition.
The eleventh round was a
cycling race. The twelfth round
was a rowing competition. The
thirteenth round was a canoeing
event. The fourteenth round was
a sailing competition. The
fifteenth round was a shooting
event. The sixteenth round was
a fencing competition. The
seventeenth round was a judo
match. The eighteenth round was
a karate match. The nineteenth
round was a taekwondo match.
The twentieth round was a
judo match. The twenty-first
round was a karate match. The
twenty-second round was a
taekwondo match. The twenty-third
round was a judo match. The
twenty-fourth round was a karate
match. The twenty-fifth round
was a taekwondo match. The
twenty-sixth round was a judo
match. The twenty-seventh round
was a karate match. The twenty-
eighth round was a taekwondo
match. The twenty-ninth round
was a judo match. The thirtieth
round was a karate match. The
thirty-first round was a taekwondo
match. The thirty-second round
was a judo match. The thirty-third
round was a karate match. The
thirty-fourth round was a taekwondo
match. The thirty-fifth round was
a judo match. The thirty-sixth
round was a karate match. The
thirty-seventh round was a taekwondo
match. The thirty-eighth round was
a judo match. The thirty-ninth
round was a karate match. The
fortieth round was a taekwondo
match. The forty-first round was
a judo match. The forty-second
round was a karate match. The
forty-third round was a taekwondo
match. The forty-fourth round was
a judo match. The forty-fifth round
was a karate match. The forty-sixth
round was a taekwondo match. The
forty-seventh round was a judo
match. The forty-eighth round was
a karate match. The forty-ninth
round was a taekwondo match. The
fiftieth round was a judo match.
The fifty-first round was a karate
match. The fifty-second round was
a taekwondo match. The fifty-third
round was a judo match. The fifty-
fourth round was a karate match. The
fifty-fifth round was a taekwondo
match. The fifty-sixth round was
a judo match. The fifty-seventh
round was a karate match. The
fifty-eighth round was a taekwondo
match. The fifty-ninth round was
a judo match. The sixtieth round
was a karate match. The sixty-first
round was a taekwondo match. The
sixty-second round was a judo
match. The sixty-third round was
a karate match. The sixty-fourth
round was a taekwondo match. The
sixty-fifth round was a judo match.
The sixty-sixth round was a karate
match. The sixty-seventh round was
a taekwondo match. The sixty-eighth
round was a judo match. The sixty-
ninth round was a karate match. The
seventieth round was a taekwondo
match. The seventy-first round was
a judo match. The seventy-second
round was a karate match. The
seventy-third round was a taekwondo
match. The seventy-fourth round was
a judo match. The seventy-fifth round
was a karate match. The seventy-sixth
round was a taekwondo match. The
seventy-seventh round was a judo
match. The seventy-eighth round was
a karate match. The seventy-ninth
round was a taekwondo match. The
eightieth round was a judo match.
The eighty-first round was a karate
match. The eighty-second round was
a taekwondo match. The eighty-third
round was a judo match. The eighty-
fourth round was a karate match. The
eighty-fifth round was a taekwondo
match. The eighty-sixth round was
a judo match. The eighty-seventh
round was a karate match. The
eighty-eighth round was a taekwondo
match. The eighty-ninth round was
a judo match. The ninetieth round
was a karate match. The ninety-first
round was a taekwondo match. The
ninety-second round was a judo
match. The ninety-third round was
a karate match. The ninety-fourth
round was a taekwondo match. The
ninety-fifth round was a judo match.
The ninety-sixth round was a karate
match. The ninety-seventh round was
a taekwondo match. The ninety-eighth
round was a judo match. The ninety-
ninth round was a karate match. The
hundredth round was a taekwondo
match.

ENDEAVOUR TO TRY FOR BIG AMERICA CUP

British Challenger Sails Away From English Shores Over Sea
GOSPORE, June 24.—The Endeavour, 28,000 lbs. of wood, steel and canvas, last night headed down the English channel en route for Newport, R.I., and another British challenge for the world's greatest yachting trophy, the America's cup.

She's Heading Across Ocean

White canvas billowing in the breeze, the big racer moved out of Gosport harbor just before noon on Sunday, and before noon on Sunday, the Endeavour, 28,000 lbs. of wood, steel and canvas, last night headed down the English channel en route for Newport, R.I., and another British challenge for the world's greatest yachting trophy, the America's cup.

LATE SELLING DRIVE FORCES STOCKS LOWER

NEW YORK, July 24.—Selling pressure in the stock market drove up somewhat today, although a late selling drive continued most of the morning. The market was not noticeably enthusiastic for the recovery and prices slipped farther toward the close. The stock market was not noticeably enthusiastic for the recovery and prices slipped farther toward the close.

WORLD'S CHAMPION SPEED DEMONS AT EXHIBITION GROUNDS—SEE THEM

Mlle. Mazie To Provide Thrill

When the seventh event is called at the Edmonton Exhibition race track next Wednesday afternoon, Mlle. Mazie, the world's champion woman race driver, will haul her big 200 horse-powered French Peugeot racing car out on the course for her sensational board wall crash.

Mlle. Mazie is shown in the picture travelling at a speed of seventy miles an hour as she hits the solid board wall, which will furnish an additional feature to the thrill packed afternoon of sport on the Exhibition grounds.

Mlle. Mazie holds the world's straightaway record of 119.8-10 miles an hour on the Florida Beach and nine official world's dirt track records.

HAUGDAHL TO SEEK RECORD IN NEW AUTO

Special Motor with Super-charger Expected To Help Win Honor

SUPERCHARGER

A Feature of the Graham Graham's centrifugal Super-charger mixes fuel and air and forces the mixture into the cylinders under high pressure. Result: 45% increase in power (over 135 h.p.) without sacrificing economy. Amazing pick-up, smoother performance, easier starting. The advance of the decade in automobile engines!

Sig Haugdaahl, veteran of over a score of years in the thrill-packed world of hurtling racing automobiles over speedways, beach straightaways, and over the treacherous turns of hundreds of dirt tracks that abound in the United States and Canada, will be one of the strongest contenders to win the world's championship crown from Schrader, present titleholder. This diminutive Norwegian, former world's champion, hears the distinction of being the first human being who travelled the speed of three miles per minute at Daytona Beach, Florida, in 1928. Haugdaahl, who resides in Daytona Beach, has been busily engaged the last two months assembling a new Miller engine car lighter than any of its type and equipped with a super-charger which is said to develop well over 200 horsepower at 1,200 revolutions per minute motor speed. New records are in the making when this ever-popular contest receives the starting flag at the Edmonton Exhibition Grounds, July 25.

BUYS HORSE IN AS OLD FRIEND TO END EASILY

POKESTONE, Eng. July 24.—Rather than see his old friend and "side-kick" go to a questionable boneyard, Tommy Weston, well-known jockey, bought in the 10-year-old race horse Capa-Pie and surgeon for business destruction. Capa-Pie was once in the St. James House stable, when he won a Great Ebor Handicap for Lord Derby and was the first winner in England trained by Frank Butters. In the race for the St. James' Selling Handicap recently he was tailed off a long way back. He was advertised to be sold after the race, and a reporter found Weston "glad to be cornered of the auctioneer's stand" watching the horse's turn on the block.

The jockey started the bidding at \$25. It went on to \$125, at which Capa-Pie was knocked down to him. Weston had a great affection for the horse which he had ridden to victory several times in the animal's best days.

Residents To Buy Telephone Lines
NEW NORWAY, July 24.—Meeting at the Hoover school, six miles west of here, last Thursday, residents of this area unanimously decided to form a mutual telephone company to purchase lines east and west, consisting of circuits 25, 26, 31, 32, 33 and 38.

The company will be known as the New Norway Mutual Telephone Company and the following board of directors was selected: President, S. Westwick; Secretary, L. Salomon; James Deller, Oliver Holt, Enoch Stromberg, T. W. Mulcaster, C. H. Kellor.

Considerable interest has been taken in this neighborhood lately in connection with the purchase of rural lines serving the residents. Hugh J. Montgomery, Liberal member of the legislature for Westsaskatchewan, was present at the meeting, giving, on the invitation of those convening the gathering, an exposition of the system by which lines are sold.

An inspection of the lines will be made immediately and a committee of directors will visit Edmonton in the near future to complete business deals in connection with the transaction.

Widower Found Dead In Street

PETERBOROUGH, Ont. July 24.—Robert McHARRY, 60-year-old widower, was found dead today in a pool of blood on a deserted street beyond the western boundary of this city. The body bore head and face injuries. McHARRY lived a half-mile from where the body was found.

LEO YOUNG OF CHICAGO

Roby speedway star, who is in Edmonton prepared to win his share of gold and glory in the automobile races scheduled for next Wednesday afternoon at the Exhibition grounds when the program of world's championship half-mile track races will take place. Leo Young is the youngest of the three great speed men in the same family. Curly Young, the eldest of the three brothers, won the light car championship of the world on the Roby speedway several years ago and Carl Young, the second brother, won the San Diego, Calif., speedway championship the past winter.

GOOD START FOR RED DEER FAIR

RED DEER, July 24.—Red Deer's forty fourth annual fair opened on Monday under favorable circumstances with every prospect of an excellent show to continue Tuesday and Wednesday. Livestock is an outstanding feature and the entries are up by some forty per cent over those of 1933.

Red Deer district is well represented on its Central Alberta with a strong showing from outside points. Other classes also show encouraging entry lists. Races, games and side-shows round out a good midway. Tuesday and Wednesday will see the "Old Times" reunion in full swing. On Thursday noon the grand parade will start off the two day program. Lieut. Governor W. L. Walsh will open the fair and later hold a reception for the promoters. In the afternoon a buffalo barbecue will be in progress and free sandwiches will be passed out. The boys' band from Innisfail will be present and will provide music. The grandstand performances will start and so will the racing program.

President A. L. Forrester, Secretary R. S. Gillespie and directors of the agricultural society are confident the fair will be a success.

Needle Carried In Stomach 21 Years

LOS ANGELES, July 24.—For twenty-one of her twenty-three years, Grace Dowdine carried a needle originally two inches long in her stomach and did not know it. Several days ago she felt a pain and X-ray pictures disclosed the cause—the needle, broken by rust into three pieces.

Dr. Clarence K. Wells operated today and Miss Dowdine is doing nicely. She does not remember swallowing the needle.

Three Drown

GLACIER PARK, Mont. July 24.—Three civilian conservation corps workers were drowned Monday when a launch carrying seven men sank in Lake Sherburne.

POOR 'MELLON' LIKES POVERTY, STATES REASON

PITTSBURGH, July 24.—A "poor cousin" of Andrew W. Mellon, the millionaire banker, was found Monday living in congested poverty amid a scene of empty packing boxes, rusty cans and other transient debris. He is gray-haired William Andrew Mellon, only brother of Judge Thomas Mellon, the noted banker's father.

"I wouldn't trade this place for the best suite in the best hotel," the Mellon "poor cousin" said. "I need this place because I can have home-cooked food and because I can read, study, think and dream here."

Bishop Dies

BOSTON, July 24.—Bishop John W. Hamilton, 96, of Washington, D.C., dean of the board of bishops of the Methodist Episcopal church and chancellor of American University Extension, died here today.

On the average, men are five inches taller and about 30 pounds heavier than women.

Three Leading Drivers Enter

When the automobile racing stars get under way at the Edmonton Exhibition grounds next Wednesday afternoon, three of the four drivers caught in action on the Eastern States exposition grounds at Springfield, Mass., will participate in the different Edmonton speed events.

In the picture herewith Gus Schrader, world's dirt track champion is shown in the lead with Lou Schneider, winner of the great 500-mile International sweepstakes, second, and Swan Peterson third with Ray Laplante bringing up the rear.

Insert shown at left, is the racing face of Dave Champeau, the young French Canadian who is coming to the front in the automobile racing game. Laplante will drive the smallest speed creation in Wednesday's race meet at the Edmonton Exhibition grounds.

Safeways Clash With Grit Squad Wednesday Night

Clayton McLennan's first ball champion Grits can cause a big shakup in the Junior Baseball League standings when they clash with Safeways on Wednesday at Boyle Street lot, starting at 8:00 o'clock.

Safeways are now tied with Arrow Buys for leadership of the league, and offering a defeat from the Grits would tip the scales in their favor.

Monday's game in which Grits beat North Edmonton 4-2 was the first time the McLennan boys looked anything like their best and they give promise of turning on the heat against Safeways.

Red Chevrons Meet Wednesday

To make final arrangements for annual picnic and church parade to be held at a date to be arranged for early in August, the Red Chevrons Club is meeting tomorrow evening at eight o'clock in their club rooms on Victoria avenue.

This year a change is being made in the program of past years. Both events will take place on the same evening. The picnic will be held on Saturday and the following day, the club will play a game at the Parliament Buildings for a dress rehearsal.

Full arrangements will be made at the meeting on Wednesday and it is hoped all members will be in attendance. All tickets issued in connection with the picnic must be turned in at this meeting.

Callies Seeking Win Over Radial Eleven Wednesday

Callies and Radials, tied for leadership of the first division soccer league, will first to break that deadlock when they meet Wednesday at Diamond Park in a scheduled game which will kick off at 7 o'clock.

Dominion cup playdowns, in which the first game is to be played provincial play, has held these two teams inactive for a lengthy time and coaches report their change to be in good form for the tilt.

It has been a fairly even battle waged by both teams in the league schedule, although Radials maintained the lead for quite a lengthy time. Callies' defeat of Radials, however, was only two weeks ago. The blue-shirted Seters made many errors in the game, and the Radials, and the latter team may expect stiff opposition from their opponents.

Draws have been made for the Alberta Challenge cup competition in which four teams are entered and the first game is to be played Saturday.

Four teams are entered in the cup game, mainly Edmonton, Callies and Callies, with Edmonton playing against the first game Saturday and Radials meet Callies in the next game Wednesday, August 1. The first will be played Saturday, August 4.

Froed Mines Tie With Verdun Park

ULSTER STADIUM, TORONTO, July 24.—Froed Mines, Ontario, defeated Verdun Park, Ontario, 3-1 in the second game of the series.

Callegians Show

Softball Experts

A handful of softball fans saw the Edmonton Mickies go down to a 3-2 defeat at the hands of the Calgary Aces in an intermediate game, on Sunday afternoon. Recently the Callegians have won several games in exhibition games against the "Mickies" in the "Mount Royal" series.

Spot Of Jupiter
Growing Larger

CLEVELAND, July 24.—The large white spot which appeared on Jupiter's outer layer in April is growing larger, according to observations made by Dr. J. J. Neill, director of the observatory at Case School of Applied Science.

Islay Football Club Organized

Islay football club was re-organized at a special meeting held Sunday, and a strong board of officials was chosen.

A. C. Munro was elected president and has a strong slate to help in guiding the destinies of the club.

Givins was chosen manager, H. Robinson as captain and David Geddes was elected secretary.

The disabled Ed-Striverson decided to hand over their sports day to the football club and all entries are to be received by D. Geddes, secretary, before August 3. Full proceeds will go towards the club and the league's expenses. The sports day will be held August 8.

Good Guy To Have Around

Ralph Kress, in action and cleanup in inset, played second in place of Buddy Myer, when that infielder was spiked, and now is filling in for Kubei at first until Joe's broken ankle heals.

Yehudi Menuhin, youthful concert violinist, turned up in Calgary when he did not play the violin. He first made his appearance as a soloist at the age of 8.
